EDUCATION

The Pennsylvania State University, B.S. in Computer Science, GPA: 3.3 / 4.0

Expected Graduation: May 2026

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Theory of Computation, Communication Networks, Deep Learning Algorithms & Analysis, Computer & Network Security

TECHNICAL SKILLS

- **Languages:** Java, C#, TypeScript, JavaScript, HTML, CSS, SQL, C++, C
- **Frameworks & Tools:** Next.js, React.js, Node.js, TailwindCSS, Claude Code, Javalin/Jetty, Avalonia, WPF, Selenium, Swing/AWT
- **Software:** MongoDB, MySQL/Postgres, Git, GitHub, Gradle, Jenkins, Postman, Nginx, Apache, Power BI
- **Technologies:** REST API and Web Development, UNIX/Linux, Networking, Cybersecurity, Cryptography

WORK EXPERIENCE

Boomi - Customer Solutions Consultant Intern | Conshohocken, PA

June 2025 - Aug 2025

- Automated structured PDF data extraction, API integrations, anomaly detection, and email routing using Boomi's **AI AgentStudio** and **iPaaS** platform, following **Agile** methodologies for iterative delivery.
- Engineered a customer support algorithm that ranks ticket urgency using **10+** metrics including ACV, ARR, and churn risk, using **Java** to validate data and notify technical success teams of rankings & anomalies through Slack and email integrations
- Developed an AI-enhanced productivity app that won a company hackathon by extracting action items from emails and meeting transcripts, and automating follow-up tasks like sending emails or making **Jira** tickets using Boomi's AI

Quench - Product & Sales Intern | King of Prussia, PA

June 2024 - Aug 2024

- Organized sales data through a **Power BI** dashboard to automate a monthly sales reporting process saving **2+ hours** per request
- Partnered with cross-functional teams to customize analytics ensuring the dashboard aligned with the business's needs

PROJECTS AND EXPERIENCE

Warden | Next.js, PostgreSQL (Supabase), TailwindCSS, TypeScript

July 2025 - Present

- Developing a **full stack** envelope budgeting app that tracks spending habits and visualizes the flow of money across accounts
- Designing a secure backend system to handle user auth, transactions, budgets, etc. using **PostgreSQL** with **Supabase**
- Utilizing **Adobe's React Aria** library to accommodate for all users by making accessible components

Suited | <https://suitedapp.com> | Next.js, MongoDB, Jenkins, TailwindCSS, TypeScript

June 2024 - Mar 2025

- Launched a poker bankroll tracker and analytics tool that analyzes poker sessions to identify performance trends and predict profit
- Grew the site to **40+** members through Meta ad campaigns while utilizing **Google Analytics** for customer behavior analysis
- Created a **REST API** to store game sessions, leagues, player stats, and more
- Implemented responsive dashboards using **Recharts** and **TailwindCSS** for user-friendly cross-platform support

Neurosis | <https://store.steampowered.com/app/2102180/Neurosis> | Unity, C#, Blender

Jan 2023 - Apr 2023

- Developed a single-player horror puzzle game using the **Unity** game engine with **Blender** for modeling
- Implemented a custom modular inventory and interaction system in **C#** to handle object collection and user actions to drive gameplay

HackPSU Fall 2022, Spring 2023, Fall 2023, Fall 2025 & Brickhack 9 Fall 2023

- AdLite | 1st Place - Entrepreneurship and Best Use of Taipy | Built a cryptocurrency-based advertisement alternative
- GreenSolve | 1st Place - Sustainability and Most Creative Use of Twilio | Developed a website that shares local green projects to promote environmental awareness

LEADERSHIP AND ACTIVITIES

Computer Science Club - Founder & Secretary | Penn State Erie, The Behrend College

Oct 2022 - May 2024

- Founded the Computer Science Club as a branch of ACM; taught students programming languages through group projects

Computer Engineering Club | Penn State Erie, The Behrend College

Sept 2022 - May 2024

- Collaborated with other students to explore technologies such as bluetooth through hands-on projects

FRC Team Demon Robotics - *Programming Team Lead* | Kennett High School

Sept 2018 - June 2022

- Led the programming team to develop robot control systems, competing internationally
